About the Summer Training/ Internship /Refresher/STC/Orientation Programme

Training is the process of learning a skill and it enables the trainee to attain the skills that are needed for a job. "Summer training" is a very common term among students pursuing degrees. Summer training is very important for bridging the gap between the industry and the academic curriculum.

Training helps you know about the implementation techniques of concept learnt in classes. Learning and implementation are two completely different things. Learning comes from reading about a concept while implementation is putting whatever you have learnt to practical use.

The main objective of conducting an orientation programme is to transform a teacher into a learning and creative teacher. It is possible only when the ASCs identify the relevant contents and methodology. The UGC/MCI has provided broad guidelines for the themes to be covered in orientation programmes. Programmes(OP) and Refresher Courses (RC) for the overall development of the teachers and profession. It mentions several reasons for Understanding Educational Culture, Networking, etc. which motivate the teachers to attend the programmes, and on the other side, it lists out the benefits been given to parts of the society i.e. students, teachers, and the educational institution.

. Objective

The course will explain the fundamental concepts of advance statistical data Analysis techniques. It will be delivered through video lectures and reading materials.

Methodology

The methodology of the course will comprise of:

- Online lecture
- Participatory discussion
- Demonstrations
- Problem solving (exercises and data analysis in each sessions).
- Assignment

After successful registration, the participants will receive a confirmation via email. Please keep checking the spam folder of the email as the bulk email sent may end up in the spam folder. An official group has been made for communication with the participants on "Whatsapp." The link to join the official group will be provided in the confirmation mail.

About the Trainer

Dr. Anup Kumar is, Associate Professor, Department of Biostatistics, & Health Informatics, SGPGIMS, Lucknow has completed his Ph.D. from Banaras Hindu University, Varanasi in the field of Mathematical Modeling of Human Fertility in 2012. Currently his area of interested is Stochastic Modelling, Big Data Analysis, Text Mining and Biostatistics. He has published more than 20 research articles in reputed international and national journal. He has delivery more than 25 talks on applied statistics at various national level workshop. Working software for data analysis are R & SPSS.

Dr. Borsha Neog obtained her B.Sc. from Jagganath Barooah College, Jorhat, Assam. She has completed his M.Sc. & MPhil in Statistics from Dibrugarh University, Dibrugarh. Currently she is serving as an Assistant Professor, department of Agricultural statistics, Assam Agricultural University, Jorhat. She has participated many national and international level workshops & conferences as well as presented her research work in national & nternational conferences. She has invited as a resource person in national level workshop. Her research interests focus on forecasting, machine learning and time series analysis.

Mr. Saurabh Agarwal is a graduate and post graduate engineer from IIT Kanpur and IIT Delhi. At present he is associated with HBTU, Kanpur. He is consultant to IBM and UNESCO for Business Analytics. He has expertise in Data Mining, Data Analysis, Business Analytics, Structural Equation Modelling, Multivariate Analysis and works on platforms like R, SPSS, AMOS, Modeler, IBM Watson Analytics.

Dr. M. Ramakrishnan Assistant Professor, P.G and Research Department of Mathematics, Ramakrishna Mission Vivekananda College, Mylapore, Chennai. Dr. M. Ramakrishnan has done his Ph.D in Mathematics-Statistics from the University of Madras. He has twenty six years of teaching Experience in Mathematics. His specializations are Mathematical Statistics, Ordinary Differential Equations. His Research area is Survival Analysis. He has expertise in handling Softwares SPSS, STATA, R Programming, WINBUGS, EXCEL and SCILAB. He has published Research Papers in National and International Journals and Presented Papers in many National and International Conferences in the field of Survival Analysis throughout India. He has conducted several R courses in all over India.

Dr. S. K. Yadav is currently working as Associate Professor at Department of Statistics, Baba saheb Bhimrao Ambedkar University (A Central University), Lucknow. He did his M.Sc. and Ph.D. from Department of Statistics, University of Lucknow. He has teaching and research experience of more than 10 years in the field of Statistics. He has published more than 100 research papers in various national and international journals. He has delivered many invited talks in the National and International Conferences. His areas of research include Sampling theory, Regression Analysis and Operations Research.

Dr. Ranjit Kumar Paul is Senior Scientist at IASRI, New Delhi. He has published many research paper in national and international journals. He has published two books. He received the Young Scientist Award in Social Science for the biennium 2015-16 by National Academy of Agricultural Sciences (NAAS), he Received ICAR Lal Bahadur Shastri Outstanding Young Scientist Award in Social Sciences for 2016.

Dr. Gayatri Vishwakarma is an experienced Biostatistician having 14+ years of post-PhD work experience in academics and research. Dr. Gayatri is currently working with ISIC as Head-Biostatistics. She worked as Biostatistician with Department of Research at Rajiv Gandhi Cancer Institute, New Delhi. She worked as Visiting Scientist at University of Texas Health Science Center, Tyler TX, USA. She also worked as Monitoring & Evaluation Specialist in Woodward Charitable Foundation, Ethiopia.

Dr. Shambhavi Mishra is working as an Assistant Professor in the Department of Statistics, University of Lucknow, since February 2016. After completing her Master's in Statistics from Lucknow University in 2011, she worked as a Statistical Fellow in SGPGI's Department of Biostatistics & Health Informatics. She has also worked as a Biostatistician and Data Analyst for the Bill & Melinda Gates-funded Community Empowerment Lab based in Lucknow Her specialization encompasses Biostatistical Modelling, Epidemiology & Survival analysis, Survey Sampling, Multivariate Analysis, Analysis of Variance, and Design of Experiments and data analysis using SPSS, R, STATA and Python. She has 35 research publications in high impact factor journals such as The Lancet Global Health, American Journal of Clinical Nutrition, Environmental and Molecular Mutagenesis to name a few. She has given many invited lectures and paper presentations at national and international conferences.

Dr. Amit Kumar did his Doctor of Philosophy (Ph. D) from All India Institute of Medical Science, India. Currently he is serving as an Associate Professor and Head of Department of Laboratory Medicine Rajendra Institute of Medical Sciences, Ranchi, Jharkhand, India. He has participated many National and International level workshops & conferences as well as presented his research work in National & International conferences. He has invited as a resource person in National level workshop. His research interests focus on forecasting, Regression analysis
